NO. 13

DON'T NEGLECT A COLD.

Neglected Colds Lead to Consumption.

MISS LILLIAN POWELL
Aurora
IND.

PE-RU-NA
CURES
COLDS
AND
COUGHS.

How Pretty Miss Powell Was Restored to Health by Pe-ru-na.

Miss Lillian Powell, Aurora, Ind., writes:

"Last spring I caught a severe cold from getting my feet wet and being out in the rain, and in a day I had a most miserable cold, but I neglected it, thinking it would soon leave me. But it hung to me for two weeks, when I felt something must be done, as my condition was serious. I had heard so much about Peruna and in its praise that I bought a bottle and began taking it regularly. I was gratified to find that in a week the cold and cough was broken up, and three weeks' treatment completely restored my usual good health."—Lillian Powell.

How Consumption Develops.

Nine cases of consumption out of ten occur in this way:

A person catches cold. The cold is not properly cured, and another cold is caught.

This cold is dilly-dallied with, either by no treatment whatever or some treatment that is ineffectual, and the cold continues.

Then another cold is caught and a cough develops. Cough syrups are resorted to, but they give only temporary relief.

By and by the patient gets tired of taking medicines and cough syrups and gives up in despair.

The cold continues to develop and the cough grows worse.

Then the doctor is called in, only to discover that the patient is in the first stages of consumption.

It was just in this way that Miss Powell, of Aurora, Ind., became sick. She caught a cold, and not considering it serious, neglected it, thinking as many others do, that it would "wear off."

However, it clung to her tenaciously, and in two weeks she found her health in a serious condition.

Fortunately, Peruna had been brought to her notice, and she took a course of this remedy before it was too late.

In a week the cough and cold were broken, and a three weeks' treatment completely restored her to health.

This is what Peruna is doing all the while. Not a day, and probably not an hour passes in which some one does not have a similar experience with Peruna.

Cure the Slight Colds and Avoid Consumption.

The first step toward consumption is a cold. The next step is a failure to cure it promptly. The third step is the development of catarrh, which gradually becomes chronic. The fourth step, the catarrh begins to spread from the head to the throat, then to the bronchial tubes, and finally into the lungs. It is then consumption in the first stage.

At any time during the progress of catarrh, from the first onset of the cold to its final settlement in the lungs, Peruna can be relied upon to stop the disease. If you have taken a cold, buy Peruna without delay. One bottle in the beginning will do more good than a half dozen bottles after the catarrh has fastened itself on the lungs.

Thousands of Testimonials.

We have on file thousands of testimonials from people who have been cured of catarrh of the lungs by Peruna. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements we are receiving every month. No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Peruna.

REFUSE TO SERVE

WITH A NEGRO.

Two White Physicians of Booneville Resign From Pension Board Because of Appointment.

Booneville, Mo., Jan. 22.—Following the appointment of Doctor Leon Hill, a negro physician of this city, as a member of the Pension Medical Examination Board of Cooper county by the Pension Department at Washington, the two white members of the board, Dr. John T. McClanahan and Doctor Smiley, have tendered their resignations to effect immediately unless the appointment of Hill is withdrawn.

Doctor Hill was appointed to fill the vacancy caused by the resignation of Dr. Stillor.

It is said that his appointment was recommended by National Committeeman Akins and also by W. G. Pendleton, chairman of the Republican County Committee, and C. G. Williams, a negro member of the Republican State Committee.

Nothing in the way of a reply has been received from the department as yet to indicate what would be done in the matter.

Drs. McClanahan and Smiley are firm in their determination not to serve on the board with Doctor Hill.

Several old soldiers seeking pensions came to Booneville to day from Monticau and Cole counties, but refused to be examined by Dr. Hill. They came here to stand a physical examination before making their applications but when they learned that they had to be examined by a negro physician they declined and returned home.

He Was Generous.

From the New York Times.

"Our Hopeful" mother was determined he should be generous. "Always divide with your friends," was her daily admonition. One day she was holding forth on this theme to an admiring friend when "Our Hopeful" appeared with a much begrimed face. "Mother I've brought you some taffy," unclasp the chubby fingers, which disclosed on the moist palm a dark, sticky substance, which he handed her. As she put it in her mouth "Our Hopeful" bent forward with his hands on his knees to watch the operation, mouth and eyes wide open. "Are you sure you swallowed it? Is it down good? 'Cause I gave it to Prince and he unswallowed it two times."

ITCHING ECZEMA

In July, 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was as bad off as ever, so I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried.

During the time I lost about one-half of my hair. I began S. S. S. doubtful of a cure, because the disease had run so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered. F. C. NORFOLK, 1017 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and eruptions upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent. S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free. Medical advice furnished free.

Peabody at Fault

Says Mr. Wright.

Washington, Jan. 21.—The report of Labor Commissioner Carrol D. Wright on the Colorado Labor troubles which will be sent to Congress in a few days, puts as much blame on the state government headed by ex-Governor Peabody as on the miners' union.

Mr. Wright asserts that the constitution and laws of the country and state were violated by the governor, that union men were arrested and deported without warrant of law, and that the state administration's interference with the courts was unwarranted.

The report condemns the miners for lawlessness around the mines, and says that harsh treatment of the law breakers was necessary, but that many innocent interests suffered.

Miss Newman's Slayer Says

Victim Wished For Death.

Savannah, Mo., Jan. 21.—Young Paulsgrove, who killed Miss Mary Newman yesterday, was arrested by Constable Trapp here last night in Duncan's poolhall. He appeared to take his arrest very coolly, stating that he killed Miss Newman and was glad she was dead. He said that he tried to kill himself, but failed. Asked why he killed her, he said she wanted him to, and he would tell why when the time came.

Paulsgrove was unarmed, his revolver having been found a mile east of town on the Rochester road, and his overcoat, a mile further on, hanging on a fence post. He said he didn't care what was done with him; he wanted to die. The funeral of Miss Newman will take place Friday afternoon, burial in Cherry Grove cemetery.

Akins Says He Did Not

Know Hill Was a Negro

Republie

Thomas J. Akins, National Committeeman and representative of Missouri in patronage matters, stated last night at his home, No. 30 Benton place, that, at the time forwarded his recommendations to Washington that Dr. Leon Hill be appointed to membership in the Booneville, Mo., Board of Pension Examiners, he did not know Hill was a negro.

"I was informed that there was a vacancy on the Booneville board," said Mr. Akins, and, as Dr. Hill was highly indorsed by prominent Republicans in the county, I recommended that he be appointed to the vacancy. I did not know that he was a negro."

Powers to Preserve

China's Integrity.

Washington, Jan. 21.—Secretary Hay has secured positive assurances from all the Powers that there shall be no attempt made upon the integrity of Chinese territory.

Recently it was reported that some of the Powers contemplated extending the territorial possessions they already had in China at the conclusion of the war in order to maintain what they called the balance of power in the East, asserting that the outcome of the war would be a readjustment of Chinese territorial boundaries.

A circular note was dispatched by Secretary Hay to the Powers based on this information, with the result that they have now all positively disclaimed any such intention.

Child "Dead Five

Hours" Recovers

North Tonawanda, N. Y., Jan. 22.—After being apparently dead for over five hours, Ella Whitkoff, 6 year-old daughter of August Whitkoff, returned to life. The child had been ill for over a month with brain fever. She became unconscious, and despite the efforts of the best physicians obtainable, her heart action apparently stopped, and her body became cold like that of a dead person. The undertaker was working over the child when a slight twitching of the little one's eyes which caused him to stop mighty quick. Again the eye lids moved and then parted. The child gazed around bewildered while her parents, who a few moments before were nearly crazed with grief were now overwhelmed with joy. The child has grown stronger and may recover.

Bowers Sentenced For Life.

Joplin, Mo., Jan. 22.—Elmer Bowers, 30 years old, entered a plea of guilty to murder in the second degree before Judge Howard Gray to day. He was sentenced to life imprisonment in the State Penitentiary.

Bowers shot and instantly killed D. L. Wildrick and E. E. Crawford at the mill of the Independence Powder Company, east of Joplin, last March.

He gave as his reason for killing them that they accused him of stealing money from the company. He also fired several shots at Herbert Talley, the assistant superintendent.

To Cure a Cold in One Day.
Take LAXATIVE BROMO QUININE Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c

An Infidel Died In Church.

Winamac, Ind., Jan. 22.—For years Richard Bossy scoffed at religion or the existence of God. Tonight he entered a church for the first time in his life, to fall dead before the accusing finger and exhorting voice of the Rev. James McCarey, an evangelist. Bossy, a confessed infidel, entered the Methodist chapel in Wilder's Station, near here, just as the congregation was listening to a fervid appeal from the clergyman. He was about to take a seat in the rear of the church, but stood as though transfixed when the Rev. Mr. McCarey addressed him.

"There is one unbeliever in this congregation to night," thundered the minister, "who cannot be saved from eternal damnation unless he becomes a Christian."

For a moment Bossy swayed. Then with a muttered cry he fell forward on his face in the aisle. When members of the congregation recovered from their stupefaction they ran to his side. He was dead.

One Man Died in Storm;

Another Driven Insane.

Durango, Colo., Jan. 21.—After fearful suffering, during which one man was frozen to death and another went insane, the surviving members of a party that tried to open up the Bigg lumber company's railroad from Lumberton to Elvado have been rescued.

Engineer Redmond had both feet frozen and a number of the shovellers were frostbitten. Two Mexican shovellers started to Lumberton. One of them was frozen to death. The other was rescued by Indians. He was terribly frozen and had become insane. The party was finally rescued by a relief train sent out from Elvado. The road is still blocked.
